Salt of the Earth*

WELCOME TO THE FALL 2015 EDITION OF THE MILESTONE MINUTE

Western has undergone many structural changes this Fall. All of which move the Company forward, and ultimately closer to building a Pilot Plant Scale Solution Mining Operation on the Milestone Project Property. Western will be hosting a Community Information Session to provide updates on the Pilot Project in early January.

Details on the Information will be announced as they become available.

SASKATCHEWAN MINING ASSOCIATION'S ANNUAL EDUCATION EVENT

Greg Vogelsang and John Jesse participated in the Saskatchewan Mining Association's Annual Education Event in October. They demonstrated reclamation activities to Grade 7 students in the area. Many other Companies were there to talk about safety, processing, exploration, and mining. Please see right for a photo from the event.

WESTERN RECEIVED ENVIRONMENTAL ASSESSMENT APPROVAL

As announced on September 28, 2015, Western received Environmental Assessment Approval ("EAA") from the Saskatchewan Ministry of Environment ("SMoE") for the Milestone Project Pilot Plant, ("the Pilot Plant").

Western re-scoped the project as detailed in the Scoping Study for a Scalable Pilot Plant delivered earlier this year and announced in the July 2nd, 2015 news release. The Milestone Project Pilot Plant provides an alternative methodology that employs lower capital using innovative selective potash solution mining techniques. The change in mining methodology and design proposed for the Pilot Plant required review under the EAA as it represented a change from the original 2013 approval.

A Project Description outlining the Pilot Plant was submitted to SMoE in July, 2015. Following review of the Project Description, Saskatchewan Ministry of Environment concluded that the proposed change will not result in significant environmental impacts different from those identified in the original EIS and is satisfied that the requirements of the EAA have been met.

STRATEGIC INVESTMENT CLOSED

On September 16, 2015, Western Potash Corp. closed a Strategic Investment from Beijing Tairui Innovation Capital Management Ltd. Tairui purchased 238,264,635 common shares of Western at a price of \$0.3358 per share for an aggregate purchase price of \$80 million. CBC (Canada) Holding Corp. (CBCHC) purchased 2,144,865 Common Shares at \$0.3358 per share for an aggregate purchase price of \$720,245.67. The Transaction provides Western with a significant capital infusion that will enable the Company to advance its current business plan to develop the pilot plant on the Milestone Project. Operational demonstration of the Pilot Plant would provide the longer-term opportunity for Western to further develop its high quality and significant potash resources in Saskatchewan with financially and technically strong strategic partners in Tairui and CBCHC.

The highlights and benefits of the Transaction include:

- equity financing for advancement of Western's Pilot Plant on the Milestone Project at a significant premium to currently depressed market prices for Western's Common Shares;
- a strategic alliance that will provide Western with access to project financing, technical expertise in large scale project construction, and management and marketing channels for future potash sales; and
- a continuing opportunity for holders of Western's Common Shares to participate in the future advancement of the Milestone Project.

Approval of the Transaction was received at a Special General Meeting of the Company's shareholders held on August 24, 2015. As outlined in the Management Information Circular dated July 24, 2015.

Tairui now holds a 51% ownership stake, and CBCHC holds a 10.1% ownership stake, in Western on a non-diluted basis.

For more information on the details of this transaction, please see the Company Press Release dated September 19, 2015 on SEDAR or the westernpotash.com.

STRATEGIC INVESTORS PROFILE

Beijing Tairui Innovation Capital Management Ltd.

Tairui is a China based private equity investment company with a focus on the energy and mining industries. The management team has extensive experience in project management and investment management in the natural resource sector.

China BlueChemical Ltd. and Benewood Holdings Corporation invested through a joint venture company, **CBC (Canada) Holding Corp. (CBCHC)**. China Blue is the controlling shareholder of CBCHC. They are a large-scale and modernized enterprise engaging in the development, production and sales of mineral fertilizers and chemical products headquartered in Beijing. China Blue is a majority owned subsidiary of China National Offshore Oil Corporation (CNOOC). The CNOOC Group is one of the largest independent oil and gas exploration and production companies in the world. Benewood is a wholly owned subsidiary of Guoxin International Investment Corporation Limited (Guoxin). Guoxin International Investment Corporation is a Chinese SOE.

WESTERN POTASH AND TAIRUI SIGN MOU WITH CHINA DEVELOPMENT BANK

A Memorandum of Understanding for Strategic Cooperation was signed on September 29, 2015 by China Development Bank, Western Potash Corp., and Beijing Tairui Innovation Capital Management Ltd.

China Development Bank is a Chinese policy financial organisation, with a focus on the development of international business, and remaining in the top position among Chinese banks with respect to international investment and financing. Please see below for a photo from the event.

MEET THE WESTERN POTASH CORP. TEAM

There have been some changes to the Western Potash Corp. team over the past few months. The Company has welcomed a few new executives. With them they bring a wealth of knowledge, experience and countless additional resources. There are still many familiar faces at Western, to name a few the: CEO - Patricio Varas, Project Director - Richard Lock, Manager of Environmental Affairs - Greg Vogelsang, Corporate Communications Manager - Angela Aydon and Environmental Geoscientist - John Jesse.

The current team, both old and new, are excited about working on the Milestone Project together and are dedicated to developing a mine in Saskatchewan.

Please see below for a list of the new Board of Directors.

Western Potash Corp. Board of Directors

Chairman of the Board: Geoffrey Chang

Directors: Patricio Varas, Bill Xue, Wang Hui, Patrick Power, Buddy Doyle, Wang Yinping, Linda Sun

Observer to the Board: Zhimao Ma

Please see below for a few short Executive Profiles.

GEOFFREY CHANG CHAIRMAN OF THE BOARD

Mr. Chang is a graduate of Tsinghua University School of Economics and Management with a Master's Degree in Business Administration. He served successively as President and Chairman of Shanxi Top Energy Company Ltd., Deputy Chairman of Shanxi Securities Ltd., Deputy Chairman of Shanxi Zhangze Power Company Ltd., Chairman and President of Shanxi International Power Group Ltd., full-time independent director for Central State-owned Enterprise, and Director of China International Travel Service Group Corporation.

BILL XUE PRESIDENT & DIRECTOR

Mr. Xue graduated from Beijing Jiaotong University, majoring in Construction Management. He also holds a Master's Degree in Business Administration, and a law degree. Mr. Xue served respectively as General Manager of Top Energy Lishi Coal Mine, Vice President of Shanxi Top Energy Company Ltd., President of Shanxi Financial Leasing Company Ltd., and Vice President of Shanxi International Electricity Group Company Ltd. He is currently the President of Tairui.

LINDA SUN EXECUTIVE VICE PRESIDENT & DIRECTOR

Ms. Sun has been an instrumental part of the Western team for the past 5 years. She brings 15 years of mining industry experience - focusing in the area of government relations, as well as, having a comprehensive knowledge of public company financing and strategic commercial transactions. Ms. Sun has extensive international relations experience with Ivanhoe Group Companies and her bilingual skills are a great asset to WPX. She holds a Bachelor Degree in English Literature at Northeastern Normal University, and a diploma of International Economics & Trading from the University of International Business & Economics Beijing.
